## Languages

English  
IELTS 6.5

Russian

Uzbek

## Profile

I am a junior .NET Full Stack developer, fluent in C# and Angular, with proficiency in English and Russian. I am eager to collaborate and contribute within a team environment.

## Courses

### Najot Ta'lim

June 2023 – May 2024 | Tashkent, Uzbekistan

Studying at Najot Talim's .NET course was an exhilarating experience that propelled me into the world of software development. From the foundational principles of C# to the intricacies of ASP.NET, every lesson was a stepping stone towards mastery. The instructors at Najot Talim were not just teachers; they were mentors who nurtured my passion for coding and inspired me to push beyond my limits.

### Internation

Tashkent

## Skills

- C#, Telegram Bot, ASP.NET, MVC, Web API, RESTful APIs, Entity Framework, Unit Testing, Git, PostgreSQL, MongoDB, Postman
- HTML5, CSS3, JavaScript, TypeScript, Bootstrap, primeNG, Tailwind CSS, Angular, Fuse Angular

## Projects

### Auto-Service

The Car Service project is a comprehensive full-stack application developed collaboratively with a team. Its primary goal is to streamline the process of managing car services, providing a seamless experience for both customers and service providers. Here's an overview of the project components:

Backend Development with C#

Frontend Development with Angular:

Database Management

Collaborative Team Workflow  
APIs

### **ToDoAPP**

Overall, the TodoApp project serves as an effective tool for team collaboration and task management, leveraging the capabilities of C#, APIs, and a collaborative development workflow to streamline the process of organizing and tracking tasks within a programming team.
